

I was very concerned to hear that my Air 1 station may be taken away from my area due to some business with the LPFM. This absolutely cannot happen. Air 1 is the only Christian radio station I can receive in my area. I have found that secular music generally leaves me feeling low, and sometimes depressed; so, I made the decision to listen to Christian music only. This decision has had a great positive influence on my life, and it is very important to me to have a station like Air 1 to support my choice. I also feel it is important to have Air one in my community because it reaches out to a younger audience with their style of music and encourages them to make good choices. I worked at a jr. high for 4 years, and it was great being able to relate to kids with music they liked when I did not have to be ashamed of the content. Our community needs a station like Air 1 that families can listen to together and enjoy. And I need a station like Air 1 as an escape from music that either talks about the pain in the world or the greatness in things I don't have. The music on Air 1 is so uplifting to me because it only talks about what amazing things I do have in Jesus. Please be sure to take what ever action necessary to ensure that Air 1 stays on the air.
